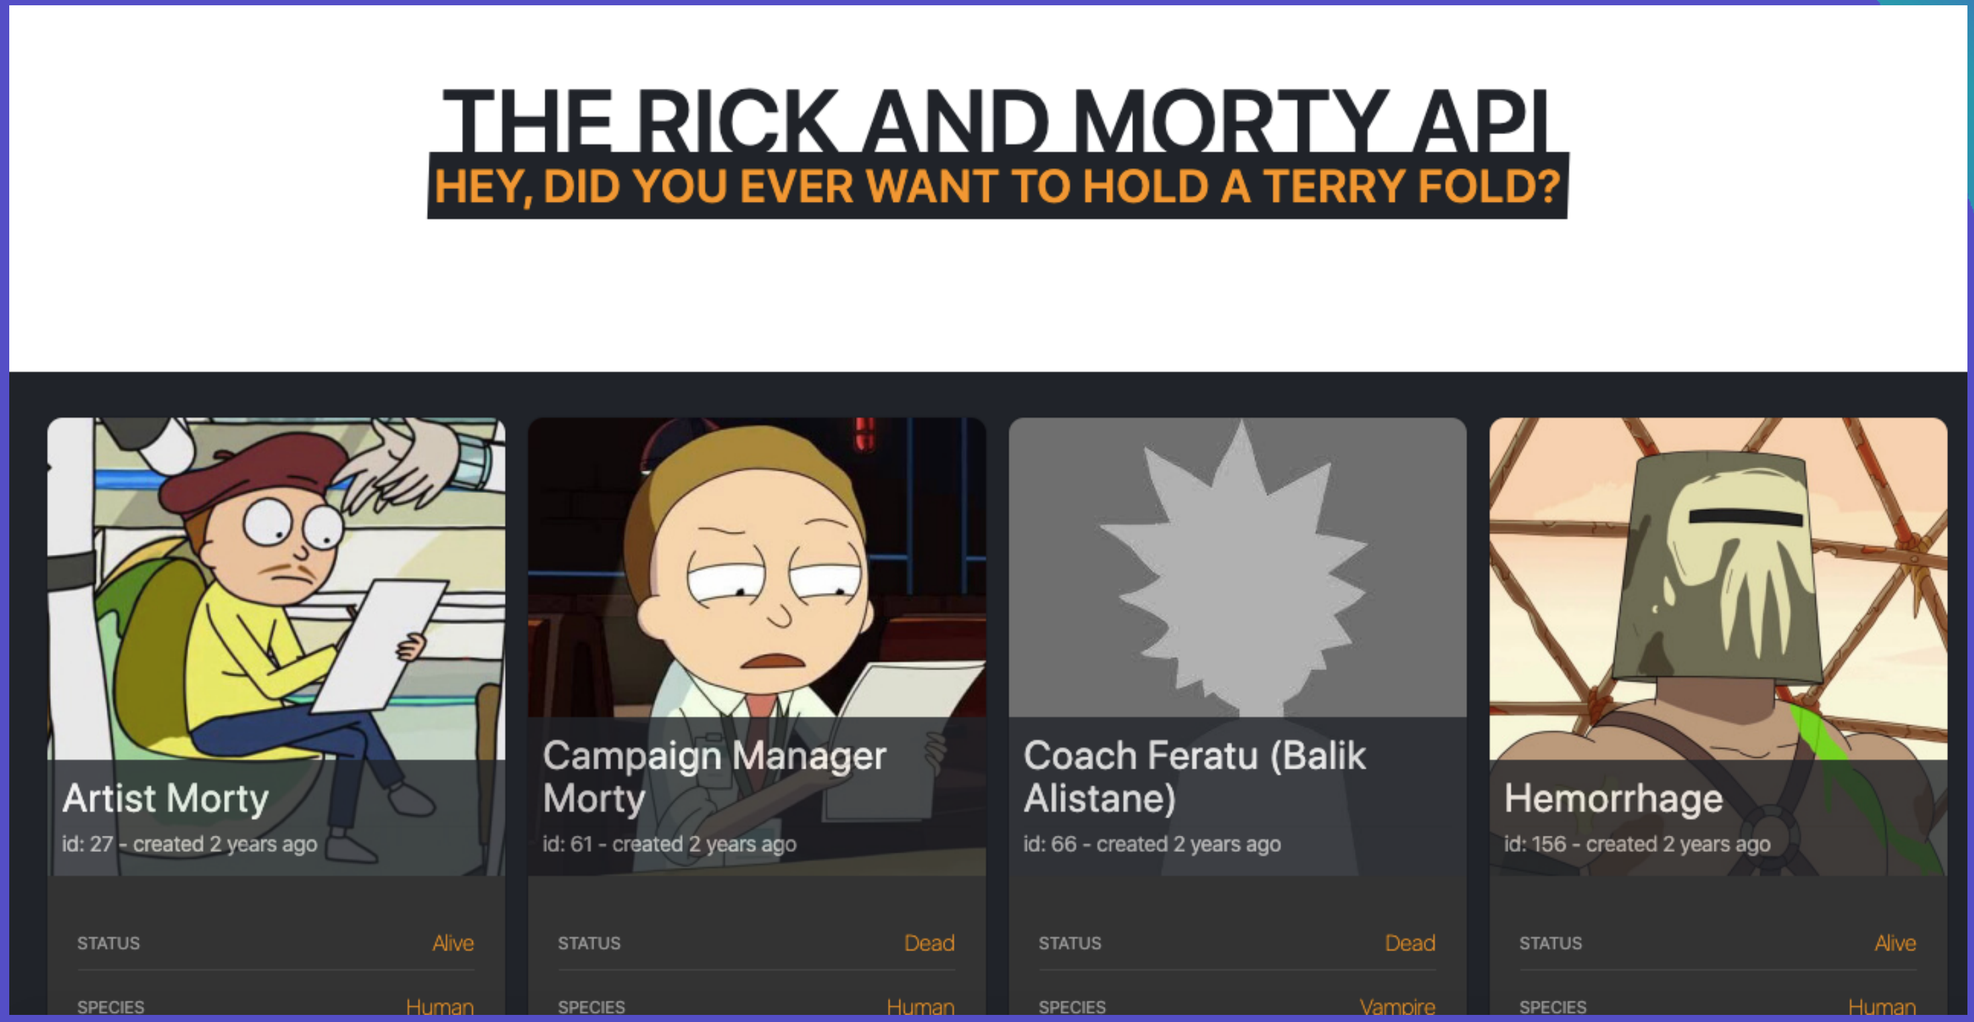
Riick and Morty game for trully fans

ShowMeWhatYou Got!

Rick and Morty Show

Rick and Morty API



Work with the API

- Almost 400 characters
- Episodes, Locations
- Easy to retrive data
- Pages of 20 characters
- Problems to fetch

REACT

What we learn?

- React :
  - Components
  - States
  - Props
  - fetch API
- CSS and HTML properlly use and adapt to react components
- Git Branches
- Manage Libraries

To improve in the future

- Login Databases
- Make better code and work with hooks
- Improve loading images
- Make more games

Usefull work with projects

Planning without know React at the beginning

Deadlines defined

Good practice in the future to work with clients
